## What's New?

Welcome to the new DMVdesk **Knowledge Base**. Use the **Quick Start Guide** to get the basics on eFiling, Bundle Printing and running reports.

In the top banner, click on the icons for viewing in the left pane. **Contents** provides quick links to all the parts of the **Knowledge Base**. Click **Search** to find information, and **Glossary** for definitions.

For more support, contact us at 1-877-368-3375.

The DMVdesk Knowledge Base is a proprietary online help tool for users of DMVdesk software. Created in RoboHelp, the Knowledge Base's topics are systematically organized according to the major features of the software. At the top of each topic page are links to the major sections of that page. Following an overview description and comprehensive screenshot, each step-by-step instruction has its own screenshot for clear and quick comprehension. Extended sections collapse and expand as desired. The WebHelp output adds a glossary, index and search capabilities.
